O gráfico à esquerda mostra o lucro dos filmes somados por ano, nota-se que apesar de o ano de 1998 possuir apenas 1 filme, nenhum dos anos seguintes na carreira do ator chegaram perto de atingir o pico máximo do gráfico.

Outra observação é que após a queda brusca em 2001, o lucro dos filmes é inconsistente até o ano de 2009, a partir da década de '10 há um leve crescimento na porcentagem, seguida por oscilações menores nos anos seguintes.

O maior pico de lucro é observado em 2015, ano de lançamento de FURIOUS 7, filme com maior bilheteria de JASON STATHAM que possui quase 700% de lucro. Apesar da queda no ano seguinte, os lucros seguem mais estáveis do que nos anos anteriores na carreira do ator.
